

## **AEM 6.2, 6.3 Authoring Course Description**

### **Summary**

This course is designed to get you up and running with AEM6.2 and AEM6.3 at your own pace. We grant you access to both versions of the authoring courses. You will be exposed to AEM's functionalities and how to use them from a content author perspective.

The course consists of 6 videos and printed Material (digital PDFs you can download and print on your own if necessary). After attending each video you should take a test to earn your grades and upon your authorization we can share your grades with possible employers of yours.

AUTOR COURSE

### **Prerequisites**

- Web Content Management knowledge
- Web experience

### **Topics and Course Structure**

You should be able to go through all the material in two days depending on your time availability and how fast you learn the topics; if needed you can extend as much as you need. You will also be granted access to our public wiki where you can meet other members and raise

questions. After each video you will be presented with a set of questions you must answer to earn your grades.
